Kinetic Recovery Ropes

This revolutionary rope has approximately 30% stretch, resulting in a smooth recovery, and decreasing the chance of damage to vehicles.

- Provides up to 50% more stretch than other market leading snatch straps
- Made from durable, double braided nylon with protective sleeves at each eye
- Supplied in an easy to handle carry bag that allows the rope to be washed and dried whilst in the bag
- The rope will not kink as it is not required to be rolled up like traditional recovery straps
- 1 year warranty on all ropes

Available in 4 different breaking strengths to suit different applications:

DT-KRRO1

- Minimum breaking strength 3,000kg
- 6m length
- Suitable for recovering ATV's/ Quad Bikes

DT-KRRO2

- Minimum breaking strength 8,000kg
- 9m length
- Suitable for recovering small to medium 4WD's and SUV's

DT-KRRO4

- Minimum breaking strength 11,000kg
- 9m length
- Suitable for recovering medium to large 4WD's and SUV's

DT-KRRO5

- Minimum breaking strength 20,000kg
- 9m length
- Suitable for recovering light to medium rigid trucks

Note: We recommend the minimum breaking strength of the rope should be between 2 and 3 times the vehicle's gross vehicle mass (GVM).
